Home care packages are based on consumer choice. Participants, in collaboration with the our coordinator create a package of care based on participant's priorities, budget, and ability, to maintain health and wellness at home.

Home care packages are based on consumer choice. Participants, in collaboration with the our coordinator create a package of care based on participant's priorities, budget, and ability, to maintain health and wellness at home.

Why Choose All About Living?

- All Home Care Packages are now delivered under Consumer Directed Care Guidelines (CDC)
- CDC is a way of delivering services that allows consumers to have greater control over their own lives by allowing them to make choices about the types of care they can access, the delivery of those services, including who will deliver the services and when they are delivered
- Dedicated, qualified, and experienced care staff
- Personalised care plan
- Seamless transition
- Value for money service

Participation

All About Living will work to ensure community connection and participation, which are important aspects for wellbeing. CDC in aged care should support the removal of barriers to participation for older people.

Transparency

Under a CDC system, older people have the right to use their budgets to purchase the services they choose. To make informed decisions about their care, older people need to have access to budgeting information, including the cost of services, the contents of their individualised budgets and how their package funding is spent.
