

NURSING SOLUTIONS IN YOUR HOME

Whether you need wound care, chronic disease management or health monitoring, **All About Living** offer experienced nurses to keep you out of hospital and in the comfort of your own home.

We provide personalised, responsive and reliable services that focus on enabling people to live as independently as possible.

Our local nursing staff ensure you feel safe and secure in your home by developing a relationship with the same nurse throughout your care program.

Our outstanding results and positive feedback is due to our high quality staff who give every patient specialised, expert attention.

Available **FREE** for Department of Veteran Affairs gold card holders.

flexible solutions for your nursing needs

SPECIALISED WOUND CARE can be life changing for patients. One of our clients received a doctor's recommendation to amputate her leg due to an infected ulcer. Our experienced Registered Nurse saved the leg by regularly attending to the wound and after six months, the ulcer was healed. The patient went from house-bound and depressed, to participating in social outings with family and friends. Her quality of life fully restored.

IN-HOME PALLIATIVE CARE

Our sensitive, top quality nursing team ensure safety, security and comfort for all patients requiring palliative care. We receive numerous testimonials from families who reach out after a loved one has passed, saying what a difference our nurses have made to their last weeks at home. We always go above and beyond to ensure our patients and family's needs are met during challenging times.

PALLIATIVE TESTIMONIAL

I want to thank you for the wonderful, caring job you have delivered nursing my father, and supporting me during this difficult time.

Dad spoke so highly of his nurse, and we both regularly praised your efforts. I have no idea what I would have done without your caring nursing team.

We are so grateful Dad got to be at home where he was most comfortable in his last few weeks. The care he was given was exemplary, we can't thank you enough!

Your nurses were encouraging, supportive and so knowledgeable, they put us all at ease. We are so grateful.

Your health, security and comfort is our top priority
